STAIN-CRETE

Chemical Stain System

Stain-Crete deeply penetrates concrete surfaces to create a luxurious mottled variegated pool of color. Ideal for any masonry surface, Stain-Crete is not a surface "paint" and will not fade, chip or peel. Stain-Crete is perfect for transforming plain concrete into an integral design enhancement to any decor providing a durable, easy to maintain surface. Stain-Crete Chemical Stain System is excellent for residential or commercial applications.

An Engineered Systems Approach

| Product | Description | Quantity | Coverage |
|---|--|------------------|------------------------------|
|  | GREASE-A-WAY An outstanding concentrated cleaner and degreaser designed for use on concrete and masonry surfaces to dissolve dirt, grease, and oil stains. | 1 Gal. 5 Gal. | 1500 Sq. Ft. 7500 Sq. Ft. |

|  | CLEAR SEAL This non-yellowing UV-light resistant sealer is formulated to provide protection against salt spray, alkali, acids and wet-dry abrasion. | 1 Gal. 5 Gal. | 1500 Sq. Ft. 7500 Sq. Ft. |

Elegance in Nine Deeply Rich Colors

The Stain-Crete colors Weathered Copper, Turquoise, Lime Green, and Bronze are to used only for interior applications, and on concrete that has cured a minimum of 30-60 days. They may react with water and blacken or darken when exposed to excessive moisture. When applying these colors the sub-grade must not be subject to hydrostatic pressure and must be well drained. The chemically stained concrete must be protected from any source of water.

NOTE: Colors depicted are reproductions and may vary from actual colors.
